        iii. Request to make a copy or take a photo of the warrant, if possible.

        i. Do not impede or physically resist law enforcement.
        ii. Clearly state: "I am not authorized to consent to this search. Therefore, I do not consent."

            1. Note what is searched or seized (e.g., computers, documents).
            2. Do not provide login credentials or unlock devices.
    b. If Law Enforcement has a valid warrant and OGC or POC says to proceed:
        i. Escort Officers: Assign a Staff member to accompany each officer.
        ii. Take notes. Assign someone to record area searched, by which officer, item seized, and questions asked, including objections.
        iii. Offer copies to avoid seizure of computers or original documents.
        iv. Do not provide login credentials or unlock devices.
        v. No access to staff: you can request that legal counsel be present.
        vi. Obtain Inventory: Red Cross is entitled to a detailed list of all items seized.
